

## **Adopt-a-Cabin Program**

The Adopt-a-Cabin Program has been established as a way for individuals, churches, companies or groups to assist in the ministry at Camp Christian. Most of the cabins were built in the mid to late 1960's with little upgrade since then other than insulation, drywall and exterior paint. The light fixtures have been recently upgraded and new doors donated, but there are a number of planned improvements that will result in the extension of the life of the buildings, improve their appearance and most importantly, make them a nicer and more enjoyable place to stay.

The planned improvements are as follows:

1. A 10x16 addition to one end of each cabin with the exception of Deerhorn and McKenzie cabins. This addition will house a center 4 foot hallway with an ADA (Americans with Disabilities Act) compliant sink and toilet room on one side and an ADA compliant shower/drying area on the other side of the hallway. The bath to be equipped with an on-demand propane water heater. The Deerhorn and McKenzie cabins have existing spaces that can be remodeled for the bath areas.
2. A 6x16 covered porch with railing attached to the end of the above addition.
3. Metal roofing if not already installed.
4. New gutters and downspouts.
5. Certainteed or equivalent wood fiber and cement exterior boards.
6. Vinyl insulated windows.
7. New efficient forced air heating system.
8. Concrete stain and sealer for existing floors.
9. Porch lighting.
10. Additional insulation as needed.
